Kelly Coffin with Julie Cassie and Kim Kasper presented a program on their recent teachers trip to China.

They went to the Carey International School in Zunig China which is a private school created for a specific group of families. They spent 10 days in a Summer camp with students from K through 6th grade. The language barrier was not a problem.

In China education is the #1 priority. It is so important that families send their kids away to school.

Western educational program are very different than that of the China syste
Our students work together to find answers or do the project at hand. Sittin
on the floor was a new experience for the Chinese kids.

The trip was a very educational and eye opening experience for the teachers
that participated.
